**Additional Updates / Concerns:**

- The CMU has been working to create a SharePoint Page to manage all digital document processing and e-signature in a single location. As we develop the page we hope to have all related source materials and information about processing FOIAs on this page. If you are not able to access the above report, please go to: [https://usepa.sharepoint.com/sites/R8\\_Community/r8\\_foia/SitePages/Home.aspx](https://usepa.sharepoint.com/sites/R8_Community/r8_foia/SitePages/Home.aspx) and request access to the page.
- FOIAonline 3.0 is here. We are experiencing some errors within the program, but are working with the developers to resolve issues as quickly as we can. There are many new enhancements to the system and the look and feel of the system are very different. Please let me know how we can help you overcome these changes. Let us know what concerns you have, what you would like to see training on, so that we can develop and offer it to regional staff in the near future.
